

# Marine Services

**MIM Management Services** offers services to clients in the marine industry through the endeavours of its degree qualified Naval Architect – Lee Baines - in the following areas:

- **Damage Surveys** – surveying damage sustained through unforeseen incidences
- **Marine Infrastructure** – surveying damage and assessing loss to marine wharves and marinas
- **Mechanical Failures** - surveying damage and determining root cause of failure, assessing loss
- **Loss Assessing** – evaluating the cost of repairs associated with a loss
- **Expert Opinions** – providing opinion on the cause of a loss or manufacturing fault
- **Risk Assessments** – undertaking risk assessments on repairers
- **Manufacturing Defects** – reviewing the cause and effects of manufacturing defects and advising remedies

We are experienced in various forms of water craft such as:

- Fishing vessels
- Hovercraft
- Recreational craft such as house boats
- Barges
- Motor cruisers
- Yachts
- Tugs

Over 100 marine claims have been undertaken by our surveyor for various insurers and private companies such as QBE, Associated Marine, Lumley, Trident and Western QBE.

High quality reporting, strong commercial acumen and rapid response times are a feature of our marine surveying activity.

Let us provide precision and competency in your marine assessing, contact us now on:
